## Bio-K +

Bio-K+ International is a popular Canadian biotech company. Its main focus is on developing Bio-K+ probiotics. From its humble roots 20 years ago when the organization had 10 employees, Bio-K+ grew from a local Quebec enterprise to a global phenomenon. Nowadays, the company is doing business with big and small supermarkets, pharmacies and hospitals. Their products are widely regarded as some of the best **probiotics** on the market. Whether you have an intestinal or infectious condition, these probiotics will aid in your recovery. In order to serve their customers even better, the organization is launching great new items almost every year.
